# *President's and Chancellor's Message*

---

Congratulations to the University of Alberta's class of 2008! For graduates, and the faculty and staff who have touched your lives, convocation is always a day to celebrate the outcome of focused study, intellectual growth and personal discovery. At this particular convocation, however, we also celebrate a historic milestone for the U of A. One hundred years ago, our first president, Henry Marshall Tory, laid the foundations of this university. At the heart of his vision were two ideals: first, that the modern university should be for the "uplifting of the whole people"; and second, that we should pursue whatsoever things are true—*quaecumque vera*.

These two ideals are closely linked, for as we pursue truth, we make discoveries that deepen our understanding of our relation to nature, community, and ourselves. Every day, we are inundated with all kinds of information, ceaselessly delivered via multiple media. Our ability to process this information with good judgment will grow increasingly vital in the future—and it is my hope that you will use your newly attained knowledge and skills in your lifelong exploration of the truth wherever it can be found and wherever it may lead.

Over the last century, the U of A has grown into one of Canada's leading post-secondary institutions, due, in no small degree, to the more than 275,000 U of A alumni who have embraced Tory's ideals and played an extraordinary part in building our province and nation. Today, I congratulate you as you join their ranks, and bring your own particular gifts to society.

Indira Samarasekera O.C.  
President and Vice-Chancellor

The pomp and ceremony of convocation exercises formally mark an important life transition for you, our graduates. Surrounded by proud families, friends, teachers and mentors, you may now move forward with confidence, having earned our admiration and praise.

Each of you chose to follow a rigorous intellectual path and each has proved worthy. Today, you mark an important milestone in your life while we, your community, mark an important one in ours. One hundred years ago, the University of Alberta was founded on a scrubby piece of riverbank by men and women who believed this province should be built on a foundation of knowledge.

At that time, our founding president, Henry Marshall Tory, promised that the knowledge within these walls would not remain here, but would flow forever outward in service to our community. Today, you join more than 200,000 University of Alberta alumni worldwide in fulfilling that promise.

Since those first classes back in 1908, our community has grown beyond the borders of Alberta to encompass the world in one global community. Learning to live peacefully and prosperously in this community will require leaders and citizens of vision, commitment and drive. More than ever, the world needs leaders and citizens like the people you have become.

Welcome and congratulations.

# *Greetings to the Graduates*

---

My heartfelt congratulations to you, this year's University of Alberta graduates. Graduation is a remarkable achievement that marks the beginning of another chapter in your life. Not only have you achieved personal excellence, you will be leaders for future generations of Albertans.

The University of Alberta's 100th anniversary marks a special time for all Albertans who have felt this institution's influence and have benefited from its ongoing and outstanding achievements. As graduates you will feel the impact of having an education from one of Canada's most distinguished institutions for learning.

The opportunities for you to contribute to our next-generation economy are vast. Individuals that advance their education further help bring new ideas into practice and into the market, and ensure greater opportunities and economic prosperity for our province.

As proud as you are to celebrate with family and friends, your learning does not end today. To be successful throughout your life you must continue to learn and build upon the strong educational foundation you have now established.

All the best to you as you pursue your personal goals and help build a stronger Alberta.

## **Greetings from Faculty and Staff**

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide a system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge.

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. To quote Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

*Congratulations from the Faculty and Staff!*

# *A Century of Vision*

*"A university is an institution for all time. It can only build soundly if it has wide vision and a far-seeing penetration. It cannot permit itself to be too seriously affected by the difficulties of the moment, whether in its spirit or its material well being. For it has a carryover value, which is one of its greatest assets: and to maintain this value a continuity of purpose is essential."*

—RC Wallace, "The University of Alberta: 1908 – 1933"  
(Edmonton: University of Alberta Press, 1933), p 14.

The 100-year history of the University of Alberta has been a century of vision, a vision borne out of the partnership of two ambitious men: Alexander Cameron Rutherford, the first Premier of Alberta, and Henry Marshall Tory, a McGill University professor who became the University of Alberta's first president.

Critics at the time dismissed their dream as impossible, or at best impractical, but the vision would become a reality. The passing of the University Act in 1906 by the new Government of Alberta paved the way to the official opening of the University in 1908.

The early years, under the careful guidance of Tory, who served as President of the University of Alberta from 1908 to 1928, were fruitful ones in which Tory recruited the University's first professors and organized the construction of the

first university buildings, starting with Athabasca Hall in 1911. These years also saw the shadow of the First World War fall over campus life, as well as the dark spectre of the 1918 influenza epidemic. Both events took their toll on the university population, and the 1918 epidemic led to a two-month cessation of university classes and activities in the autumn of that year. Despite setbacks brought on by these events, the University emerged from these trials stronger than ever, and both building construction and population growth continued.

After a decline in both enrolment and construction through the years of the Great Depression and the Second World War, the University of Alberta enjoyed a period of expansion that lasted from 1945 to 1969. The expansion was sparked at first in the years immediately following the war's end by an influx of veterans eager to begin their civilian lives studying at university, and again in the 1960s, when the post-war baby boomers came of age to attend post-secondary school.

During this time, existing university buildings were expanded and a host of new ones built, including: the Physical Education Building, the Education Building, and Cameron Library.

The period from the 1970s to the present day has been a time of continued growth. French instruction in Arts, Science, and Education on campus found a home at the Collège Saint-Jean (since called the Faculté Saint-Jean and most recently, the Campus Saint-Jean), beginning in 1970.

In 1984, Aboriginal education was formally added to the university mandate in the form of the School of Native Studies. While construction of new buildings on campus slowed during this time, building projects started in the 1960s, like that of the Biological Sciences Centre and the Central Academic Building (CAB) were completed in the early 1970s, while older buildings like Athabasca, Pembina, and Convocation Halls, and

the Arts Building were given much needed renovations throughout the late 1970s and 1980s.

In the last decade of the 20th century, the University fell under financial siege when the Government of Alberta introduced a series of cutbacks to university funding. The costs of university administration came under scrutiny, and many university faculties and departments found themselves compelled to merge in order to reduce costs while struggling to maintain a high level of educational quality for incoming students. Tuition fees were increased following the implementation of the provincial tuition fee policy in 1991, an ongoing increase that continues to generate controversy among university staff and students to the present day.

Despite these challenges, the University of Alberta continues to evolve and adopt a fresh vision for the future; one which embraces the potential of the University's many research projects to bolster the Alberta economy. This new spirit is embodied in current campus construction projects like the National Institute for Nanotechnology (NINT). This new centre of research is a symbol of partnership between the University of Alberta and the governments of Alberta and Canada, but, more importantly, it is a place that will draw new scientific talent and inventive industrial potential to the province.

“the University of Alberta should be a cauldron of new discoveries and new ideas.”

—I V SAMARASAKERA

Now a century strong, the University of Alberta stands as a global leader in higher education and human innovation. The idea of the university is an ongoing, ever-evolving one in Alberta; continually cultivated by some of the finest minds from Alberta, Canada, and across the world. As it casts its sights on the future, the University of Alberta continues to mark its place in history. In the words of the University's 12th president, Dr Indira Samarasekera, “the University of Alberta should be a cauldron of new discoveries and new ideas.”

## *U of A Centenary Stamp*

In March, 2008, Canada Post issued a special stamp to celebrate the University of Alberta's centenary. The design features the cupola of the Dentistry/Pharmacy building and combines a sense of tradition with a dynamic sense of growth. “We tried to blend the physical place with the futuristic and energetic feeling of growth, chance and possibility that this institution represents,” said designer Susan Mavor of Metaform Communication Design.

Former U of A president Rod Fraser first sent a request for a commemorative stamp to Canada Post's Stamp Advisory Committee in 2003, pointing out that “through hard work and an uncompromising commitment to excellence, we have become a university of importance to all Canadians and to many beyond our borders.”

# Quaecumque vera

*“Whosoever things are true”*

## *The University Motto*

*Quaecumque vera*, is taken from the Latin Vulgate version of the Bible, the Epistle of St Paul to the Philippians, Chapter 4, Verse 8:

*De cetero, fratres, quaecumque sunt vera, quaecumque pudica, quaecumque justa, quaecumque sancta, quaecumque amabilia, quaecumque bonae famae, si qua virtus, si qua laus disciplinae, haec cogitate.*

The same passage from the King James version is:

*Finally, brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and there be any praise, think on these things.*

## *The University Coat of Arms*

In June 1994, His Excellency the Right Honourable Ramon John Hnatyshyn, Governor General of

Canada, presented the University of Alberta with its Coat of Arms. The full Coat of Arms is displayed at ceremonial occasions such as Convocation, and is used by the Chancellor, the titular head of the University.

On the shield is a representation of the topography of Alberta rendered in the colors of the University. At the base is a prairie wheat field symbolizing Alberta's agricultural industry. The wavy gold line above

suggests the hills and rivers of Alberta and, in particular, the setting of the University campus. The top of the shield is in gold and separated from the rest of the shield by a line suggesting the Rocky Mountains. The book of learning dominates the design.

On the crest is a Grand-Duc d'Amérique, or Great Horned Owl, the provincial bird and an accepted symbol of knowledge. The Pronghorn, taken from the Provincial Coat of Arms, and the golden bear, mascot of the University support the shield. Both wear collars of the University colours, as does the owl. At the base of the coat of arms is a grassy mound with wild roses, the floral emblem of Alberta with the University's motto: *Quaecumque vera* ("Whosoever things are true").

## *The University Colors*

The University colors were chosen in 1908 when William Hardy Alexander, a professor of Classics, described his wife Marion Kirby Alexander's idea of choosing the autumn colors of green and gold, which, are resplendent in

the river valley below the University. The green also represents prairie and deep spruce forests, symbolic of hope and optimism. The gold also represents harvest fields and is symbolic of the light of knowledge.

## *The University Flag*

The University Flag has a gold background and bears the shield of the Coat of Arms.

## *The University Mace*

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 – 1970. It was presented by his son, Michael Galbraith, on behalf of his father on 26 May 1970.

Among its elements are: the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto encircles the staff.

The ceremonial stand for the Mace was donated in 1987 as a memorial

gift by family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors 1950 – 1966.

*U of A crest from the 1908 – 1909 Calendar*

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power—but the power of knowledge and the importance of the University in the community.

## *The University Ceremonial Chairs*

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto *Quaecumque Vera* together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

In 2006, a fourth chair was donated in memory and honor of Lois Elsa Hole, beloved Chancellor (1998 – 2000) and Lieutenant Governor (2000 – 2005), by Earl Evaniew, Sandra Kereliuk and their daughter Jennifer. This chair becomes part of the seating arrangements on stage, when the Lieutenant Governor or other high profile dignitaries attend the convocation ceremonies.

## *Our Sports Teams*

Sports teams have been part of the University since the beginning in 1908. Today the U of A Golden Bears and Pandas compete in 15 sports and have captured numerous titles over the years.

## *The University of Alberta Cheer Song*

*Ring out a cheer for our Alberta  
A song of praise to Varsity.  
For the splendour of our mountains  
Our prairies green and gold.  
Ranked beneath whose glowing colours,  
Thy legions march enrolled.  
Our memories will live forever  
Beloved University.  
We will fight for thee and cheer  
And ever hold thine honour dear.  
Our Alma Mater U of A  
Green and gold! Quaecumque vera!  
Guide us through each coming era,  
Guide us on through battle gory  
To a new and greater glory.*

# *Convocation*

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all Faculties. It is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods and caps declare, in their various designs and colours, the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree.

bestowed, The words "I admit you" and the placing of the students hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

Academic dress at the University of Alberta generally follows the tradition of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. See Academic Dress on page 18 for a detailed description of ceremonial colours.

## Ceremonial Procession

Members of the procession enter the auditorium in the following order:

Chief Marshal and Mace Bearer  
Marshals  
Chancellor  
Chair of the Board of Governors  
President and Vice-Chancellor  
Government Minister  
Vice-Presidents  
Honorary Graduand and Presenter  
Honorary Doctors of the University

Registrar  
Assistant Registrar  
Members of the Judiciary  
Governors of the University  
Senators of the University  
Representatives of Governments  
Representatives of Postsecondary Institutions  
Faculty of the University

## Conferring of Degrees

### The Presentation

The Dean of the senior Faculty presents the candidates for degrees with these words:

"Eminent Chancellor and President, on behalf of the Faculties, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."

### The Pledge

The President then addresses the candidates with these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honor of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

### The Admission

The Chancellor then addresses the candidates with these words:

"By virtue of the authority vested in me by the Legislature of this Province, and with the consent of this University, I admit you to the degrees to which you are entitled, and invest you with all the powers, rights, and privileges pertaining to such degrees. I charge you to use them for the glory of God and the honour of your country."

### Presentation of Graduates

The graduates are presented individually to the Chancellor in alphabetical order according to the seniority of their Faculty and the establishment date of each program.

### Conferral of Degrees in Absentia

Following the presentation of the graduates, the Dean of the senior Faculty will rise and say:

"Eminent Chancellor, on behalf of the Faculties, I present to you the remaining scholars whose names appear in the Convocation Program, but who are not in attendance."

Following the Convocation ceremony, light refreshments will be served in the reception areas on the main floor and first balcony foyers. The University and the Alumni Association cordially invite you to attend.

Those graduates who would like a photograph with the Chancellor may meet him in the east end of the main floor foyer by the Special Collections display. The Chancellor will be available for approximately twenty minutes following the conclusion of the ceremony.

Music is provided by the University of Alberta Convocation Band under the direction of Dr Thomas Dust, BSc, BEd, MM, DME.

# Academic Dress

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point.

Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

## Doctorate Degrees

'Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctors' hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet

trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

## Honorary Doctorates

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.

WEDNESDAY, JUNE 4, 3:00 PM

*Established 1908 (Department of Engineering)*

The Faculty of Engineering began as one of the first Departments in the Faculty of Arts and Science in 1908. The initial group of 45 students who started classes at the University of Alberta in September 1908 included five students studying Civil and Municipal Engineering. The Faculty is now one of the premiere engineering schools in Canada and indeed, the world.

CONGRATULATIONS

## Pamela Wallin

Senior Advisor on Canada-US relations to the President of the Americas Society and Council of the Americas in New York, Pamela Wallin has enjoyed a stellar career as a journalist, diplomat, entrepreneur, and public servant.

Ms Wallin was born in Wadena, Saskatchewan and completed a degree in psychology and political science at the University of Saskatchewan (now the University of Regina). After graduating, she began a career in social work at the Prince Albert Penitentiary in Saskatchewan. Shortly after that a friend asked her to help out with a radio program because the regular host was ill. The decision to join CBC Radio's news division launched her journalism career.

Recruited by CTV to host Canada AM, she went on to become Ottawa bureau chief, and later anchored the CTV weekend news. In 1992 she became the first Canadian woman to co-anchor the nightly national television newscast *Prime Time News*. During the course of her journalism career, she interviewed Prime Ministers Trudeau, Mulroney, Chrétien, Turner, Clark and Campbell and covered everything from politics and war, to economic summits in world capitals. She is a journalist of integrity, honesty and courage.

In 1995, Ms Wallin started her own production company and has hosted and produced numerous programs. She has also written three books: *Since You Asked, Speaking of Success* and *The Comfort of Cats*. In 2000 she hosted the Canadian edition of *Who Wants to be A Millionaire*, garnering the highest ratings ever for a network production.

Much of Ms Wallin's media career has focused on the Canada-United States relationship. After the terrorist attacks in New York on September 11, 2001, she organized and hosted the "Canada Loves New York" rally in Manhattan which saw over 23,000 Canadians attend and show their support. She was appointed Canada's Consul General to New York City in 2002; her task was to strengthen Canada's economic, political, diplomatic and cultural ties to the United States.

Pamela Wallin has consistently contributed to communities at the local, regional, national and international level. She uses her position to influence and inform, educate, and encourage dialogue and understanding. In 2007, she was installed as the seventh Chancellor of the University of Guelph. She currently serves as a board member for the Canadian American Business Council, Honorary Chair of The Nature Conservancy of Canada, council member of the Historica Foundation, and a member of the National Cabinet of the Banff Centre.

In Edmonton, Ms Wallin co-chairs the National Strategy Council for the Mazankowski Alberta Heart Institute with the Right Honourable Don Mazankowski. The Heart Institute is a centre for excellence for heart disease prevention, treatment, education and research.

An Officer of the Order of Canada, she has made enduring contributions to the vibrant social, intellectual and cultural fabric of our country.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Ms Pamela Wallin:*

*Women of Canada. Their Life and Work. Compiled by the National Council of Women in Canada at the request of the Hon. Sydney Fisher, Minister of Agriculture. For distribution at Pan-American Exposition, Buffalo. 1901.*

*This rare handbook was intended to provide an aperçu of the history, achievements and the position of Canadian women as a whole. The first issue was prepared for the Canadian Section of the Paris Exhibition of 1898 to ensure an adequate presence was provided. It includes a prefatory note by Ishbel Aberdeen (founder and Advisory President of the National Council of Women of Canada), and chapters on immigration, charities and reform, art and handicrafts, a checklist of literature by Canadian women authors, trades and industries, professions open to women and their legal status. This issue, in bright pictorial paper wrappers was distributed three years later at the amazing exposition in Buffalo, New York.*

# Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

## Graduate Studies and Research

*Established 1957*

The University of Alberta has been offering graduate programs since 1908. These programs have been under the Faculty of Graduate Studies and Research since 1957. Today the University offers 110 Masters degrees and more than 60 doctoral programs in over 300 research areas.

## Nursing

*Established 1923*

The first nursing courses at the University of Alberta were two to three month public health certificate courses beginning in 1918. In 1923, the Board of Governors approved a School of Nursing and in 1976 the school received Faculty status. The Faculty has continued to expand and is now the largest nursing Faculty in Canada.

## CONGRATULATIONS

### Esko Tapani Aho

Mr Esko Tapani Aho has had a long and distinguished career serving Finnish society and the European Union. He was also the youngest Prime Minister in Finnish history.

Mr Aho was born in Veteli and studied at the University of Helsinki where he received his Master of Social Science degree. During his studies, Mr Aho was already actively involved in politics. In 1983 he was elected to Parliament. From 1990 to 2002, he was the chairman of the Centre Party, one of the three major Finnish political parties, and he served as Prime Minister of Finland from 1991 to 1995. This period was marked by the most difficult recession in the postwar history of Finland and the unemployment rate increased from three to twenty percent in one year. During this time of cutbacks Mr Aho's government worked to secure a substantial increase in support for research, a policy which has created an outstanding legacy. Today Finland is now one of the most advanced economies in the world.

Mr Aho took bold steps that have placed Finland, a country having a population less than twice that of Alberta, at the forefront of technological advancement. Electronics companies like Nokia now account for one third of the country's export revenue. Finland's GDP is now close to ten percent higher than the average of the European Union.

In 1996, Esko Aho represented Finland on the executive committee of the International Ski Federation and attended the World Ski Championships. He has also served as Chairman of the Finnish Ski Association and Vice-Chairman of the Finnish Olympic Committee. Another example of Mr Aho's vision and willingness to champion new ideas is the issue of blood doping testing. His influence helped the executive committee accept the hemoglobin limit principle, and most federations now apply this principle. Mr Aho's legacies extend well beyond the Finnish border.

Appointed President of the Finnish Innovation Fund, Sitra, in 2004, one year later he was asked to lead a high level study group mandated by the European Commission to review how to strengthen the European Union's research and innovation performance. The group's proposal in 2006 speaks for the need of a strong political commitment to research and development, a substantial increase of resources for research and development and of synchronized efforts to achieve not only inventions but true innovations. The report calls for the European Union to package efforts rather than just working individually and to ensure efforts take place in many fields.

Esko Aho is an invited member of Club de Madrid, an independent organization dedicated to strengthening democracy whose members are former heads of state and government, the Science and Technology in Society Forum and the InterAction Council, an organization consisting of former heads of state and government which seeks solutions to the economic, political and social problems confronting humanity.

An influential global citizen, Mr Aho is also a thoughtful advocate for enduring investments in bright ideas and talented people.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Esko Tapani Aho:*

**Kuva-Kalevala. Illustrated by Aaro Karimo.**  
*Pellervo Seura: Helsinki, 1953.*

*The Kalevala is the national epic of Finnish and Karelian folklore. It was compiled by the physician, folklorist and philologist Elias Lönnrot (1812 – 1884) who travelled throughout the country carefully making notes of the sung poems. The first version published as a coherent body of work appeared in 1835. The illustrator of this publication, Aaro Karimo (1886 – 1952) was a Finnish soldier, painter and writer whose major opus Kuva-Kalevala was published posthumously. This edition is in the original Finnish but the epic has been widely translated into over 35 languages. It is bound in half leather with gilt title and decorations on the spine.*

# Congratulations Graduates

---

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

THURSDAY, JUNE 5, 3:00 PM

## **Graduate Studies and Research**

*Established 1957*

The University of Alberta has been offering graduate programs since 1908. These programs have been under the Faculty of Graduate Studies and Research since 1957. Today the University offers 110 Masters degrees and more than 60 doctoral programs in over 300 research areas.

## **Public Health**

*Established March 2006*

The newest Faculty of the University of Alberta—approved by the Board of Governors in 2006—the School of Public Health is Canada's first stand alone Faculty dedicated solely to public health and is focused on promoting wellness, reducing risks, and preventing illness and injury to improve the overall health of Albertans and others. The School builds upon and integrates the existing public health strengths of the U of A found within the Department of Public Health Sciences, with a proud history spanning more than 50 years; the Centre for Health Promotion Studies, with its interdisciplinary research and graduate programs; and the Alberta Centre for Injury Control and Research, with its focus on capacity building and evidence-based practice in the field of injury control and research.

## **Rehabilitation Medicine**

*Established 1954*

Established in 1954 in response to a severe polio epidemic, the Faculty began as a training program for physical therapists. A program in Occupational Therapy was introduced in 1960 and the program in Speech Pathology and Audiology first offered courses in 1969. These programs formed the School of Rehabilitation Medicine which subsequently became a Faculty of the University of Alberta in 1976.

### J Peter Meekison

Dr J Peter Meekison has enjoyed a long association with the University of Alberta. He first joined the University of Alberta's Political Science Department in 1967 as an Assistant Professor. His tenure on campus has included roles as Vice President (Academic), Associate Dean in the Faculty of Graduate Studies and Research, and Balzberg Chair in Constitutional Law.

From 1974 to 1984, Dr Meekison devoted his time to constitutional affairs with the Alberta Provincial Department of Federal and Inter-Governmental Affairs. He served as Deputy Minister of the department from 1977 to 1984, and had responsibility for maintaining and furthering the relationship between the province and the federal government. An excellent tactician and a brilliant strategic thinker, under his leadership the Alberta Department of Federal and Intergovernmental Affairs became the pre-eminent intergovernmental affairs department in the country.

During the 1978 to 1981 constitutional negotiations, Dr Meekison developed the formula which ultimately became the amending formula in the Constitution Act of 1982. He also led the development of a constitutional clause to clarify and strengthen provincial jurisdiction with respect to natural resource ownership and development. As constitutional advisor to the government, he was actively involved in the Meech Lake Accord discussions in 1987 and the discussions leading up to the 1992 Charlottetown Accord.

Widely known across Canada and internationally as the dean of Canadian federalism, Peter Meekison has endeavoured to make the subject of Canadian federal-provincial relations and constitutional policy come alive for his students. His book, *Canadian Federalism: Myth or Reality*, became the authoritative primer for students of Canadian government. He is an enthusiastic educator and has the ability to clarify and simplify the most complex issues regarding the Constitution, federalism, federal-provincial relations and Canadian parliamentary history.

In 1993, he was appointed as a Commissioner on the Royal Commission on Aboriginal Peoples and played an important role in the preparation and publication of the commission's five-volume report. This report remains one of the most significant and extensive studies ever undertaken on the issues, challenges and opportunities facing Canada's Aboriginal population.

He continues to contribute to the advancement of Canadian federalism through the Canada West Foundation, and at the request of Canada's premiers through The Council of the Federation. In 2005 – 2006, The Council of the Federation appointed Dr Meekison to the Advisory Panel of Fiscal Imbalance.

Dr Meekison is an Officer of the Order of Canada and is also a recipient of the 125th Anniversary of Canada Medal and the Lieutenant Governor's Medal for Excellence in Public Administration for the Province of Alberta.

He is an inspiring scholar and a leading Canadian citizen.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr J Peter Meekison:*

*François-Marie Arouet de Voltaire. A Treatise on Toleration: The Ignorant Philosopher, and A Commentary on the Marquis Beccaria's treatise on crimes and punishments.* London: Fielding & Walker, 1779.

*This is the first edition of these three translations by the Rev David Williams. Voltaire's impassioned plea for impartial justice for Protestants and Catholics alike eventually led to the exoneration of an individual executed for allegedly murdering his son rather than see him renounce his religion in favour of Catholicism. The second translation is a treatise on scepticism and the nature of philosophical comprehension. The last is an important contribution to penological reform. Williams was a founder of the Royal Literary Fund and a close friend of Oliver Goldsmith. Bound in a handsome period-style mottled calf panel binding with gilt rules and gilt-stamped corner fleurons.*

# Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

# Medicine and Dentistry & Pharmacy and Pharmaceutical Sciences

FRIDAY, JUNE 6, 10:00 AM

## Medicine and Dentistry

*Established 1913*

The Faculty of Medicine was created in 1913. However, in 1914, the newly appointed Dean of Medicine left, as did over 400 students and staff, to join the army and navy efforts of World War I. When students and staff returned in 1918, the Faculty began growing rapidly. In 1917 Dentistry was added as a Department in Medicine. In 1944 the School of Dentistry became a Faculty which later merged with the Faculty of Medicine to become the Faculty of Medicine and Dentistry. The Faculty today is also home to Dental Hygiene and Laboratory Medicine and Pathology. Today the Faculty is nationally and internationally recognized as a leader in health care, research and education.

## Pharmacy

Pharmacy began as a Department in the Faculty of Medicine in 1914, was elevated in 1917 to the rank of School under the Faculty of Arts and Science, and granted independent Faculty status in 1955. In 1921 the School was the first in the British Empire to graduate students with a four-year BSc Pharmacy degree and in 1961 the Faculty produced the first PhD Pharmacy graduate in Canada. In 1968 the Faculty's name was changed to Pharmacy and Pharmaceutical Sciences. In 1989 the BSc program became five years in length.

## **University of Alberta Medicine Graduation Oath**

*Eminent Chancellor and President, I present to you the graduates of the Doctor of Medicine degree and ask them to declare the Graduation Oath.*

*(the MD graduates reply):*

*I do hereby swear this oath before my friends, colleagues and family.*

*I will endeavour to provide the highest quality of care for my patients.*

*I will provide information enabling my patients to make decisions and recognize their right to accept or refuse medical treatment according to their own values.*

*I will never exploit my relationship with my patients and their families, and I will treat them with dignity and respect.*

*I will protect the privacy of my patients.*

*I will interact in a considerate manner with others providing patient care.*

*I will not tolerate discrimination.*

*I will not engage in medical care which I feel is unethical.*

*I will henceforth remain a student, that I may expand and refine my knowledge, skills and attitudes.*

*I will recognize my limitations and seek aid when my expertise falls short of my patients' needs.*

*I make these promises solemnly, freely and upon my honor in the noble traditions of the Art of Medicine.*

## **University of Alberta Dentistry and Dental Hygiene Graduation Oath**

*Eminent Chancellor and President, I present to you the graduates of the Doctor of Dental Surgery and Dental Hygiene programs and ask them to declare the Graduation Oath.*

*(The Graduates reply):*

*This oath I take upon my honor having been admitted to the professions of Dentistry or Dental Hygiene, before this assembly, in accordance with the tradition of Hippocrates.*

*I will use my professional knowledge and skills in service to human health by:*

*Promoting health and healing and reducing suffering to enhance the well being of those entrusted to my professional care.*

*Acting responsibly to gain understanding of patients' needs, maintain ethical confidentiality and provide respectful and informed counsel and care.*

*Willingly sharing the art and science of my profession supported by a commitment to lifelong professional learning.*

*Committing myself to the development of my professional skills to the perpetual objective of providing excellence of service to patients.*

*Honoring the tenets associated with my profession.*

## Dr Anthony James Pawson

Dr Anthony Pawson is an international leader in the field of cell signalling. His research has helped to create new approaches to treating diseases such as cancer, and his work has transformed our understanding of the inner workings of the human body.

Dr Anthony Pawson's interest in biochemistry developed thanks to the influence of one of his high school teachers, Michael Baron, who shared his passion for the biochemical mechanism of cellular metabolism with his students. Dr Pawson's curiosity led him to Cambridge, where he studied biochemistry under Dr Tim Hunt, a recipient of the Nobel Prize in 2001.

Dr Pawson pursued graduate training at the Imperial Cancer Research Fund in London. It was there that he met other scientists working to identify a gene that can cause a normal cell to become cancerous. Dr Pawson decided to specialize in the genetics of oncogenes that create oncoproteins which in turn transmit biochemical signals. He received his PhD from King's College, University of London.

While engaged in post-doctoral research at the University of California at Berkeley, Dr Pawson became interested in tyrosine kinase, enzymes which direct cellular behaviour and can lead to the development of cancer. His work with tyrosine kinase led to the development of tyrosine kinase inhibitors that are successfully used in cancer therapies today.

In 1981, Dr Pawson accepted a position as Assistant Professor at the University of British Columbia. In 1985, he moved to Toronto to join the Samuel Lunenfeld Research Institute at Mount Sinai Hospital; his work there continues. He is a Distinguished Scientist of the Canadian Institutes for Health Research, holds the Apotex Chair in Molecular Oncology, and is an International Research Scholar of the Howard Hughes Medical Research Institute.

His numerous honours and recognitions include a Gairdner Foundation International Award, the Killam Prize for Medicine, the Prix Galien Canada, the Wolf Prize in Medicine, and the Diamond Jubilee Award from the National Cancer Institute of Canada. He is an elected Foreign Member of the American Academy of Arts and Sciences and an elected Fellow of the American Academy of Microbiology.

Dr Pawson has been inducted into the Canadian Medical Hall of Fame and has been appointed to the Order of Companions of Honour by Queen Elizabeth II. Only nine Canadians have ever been appointed to the Order of Companions of Honour; membership is limited to 65 living members worldwide. He is also a fellow of both the Royal Society of London and the Royal Society of Canada, and a recipient of the Order of Canada.

One of the top 25 cited scientists in his field, Dr Pawson's discoveries have contributed to every aspect of biomedical research.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Anthony James Pawson:*

*Erasmus Darwin. Zoonomia; or, The Laws of Organic Life. London: Printed for J Johnson, in St Paul's Church-Yard, 1794. 2 vols.*

*Erasmus Darwin, (1731-1802) was a physician, naturalist, poet, inventor, and the author of several works of poetry and science. The first volume of this, his most important work, was published in 1794 with the second volume appearing two years later. In Zoonomia Darwin proposed his own theories of the gradual evolution of animals and plants and stressed the influence of environment, anticipating by decades the work of his renowned grandson Charles. The set is bound in contemporary full calf with gilt spine labels.*

The Faculty of Arts and Science was the first Faculty named by the Senate at the University of Alberta in 1908. The Faculty of Science was officially created in 1963 when Humanities and Social Sciences moved to the Faculty of Arts. Today, the Faculty is home to 7,000 undergraduate and graduate students, over 1,000 faculty and staff, and has seven departments: Biological Sciences, Chemistry, Computing Science, Earth and Atmospheric Sciences, Mathematical and Statistical Sciences, Physics, and Psychology.

# Honorary Degree Recipient

CONGRATULATIONS

## J Craig Venter

Dr Craig Venter is a world leader in genomics, the comprehensive study of an organism's genetic code. He has consistently led the field both in ideas and in accomplishments over the past 15 years.

He is founder, chairman and president of the J Craig Venter Institute, a not-for-profit research and support organization dedicated to human, microbial, plant and environmental genomic research, the exploration of social and ethical issues in genomics, and the pursuit of alternative energy solutions through genomics.

Dr Venter began his formal education after a tour of duty as a Navy Corpsman in Vietnam. He received his Bachelor's degree in biochemistry and his PhD in Physiology and Pharmacology from the University of California at San Diego. He was appointed professor at the State University of New York at Buffalo and the Roswell Park Cancer Institute. In 1984 he moved to the National Institutes of Health campus where he developed Expressed Sequence Tags, a revolutionary new strategy for rapid gene discovery.

In 1992, Dr Venter founded The Institute for Genomic Research and in 1995, he and his team decoded the genome of the first free-living organism, the bacterium *Haemophilus Influenzae* using a whole genome shotgun and assembly method that has since become the standard in genomics. This achievement revitalized the field of microbiology, and now hundreds of microbial genome sequences are available to researchers. In 2001 Dr Venter and his team at Celera Genomics published the human genome in the journal *Science*. In 2004, he carried out his breakthrough shotgun sequencing of the Sargasso Sea.

The results from the Sargasso Sea were very significant, as over a million new genes were discovered, and all in an area of the ocean that was considered an "ocean desert." Dr Venter quickly assembled the resources to generalize his Sargasso Sea experiments by organizing an around the world sailing trip, sampling ocean water every 100 miles or so.

In 2007, Dr Venter and his team decoded the complete DNA sequence of a single human being—Dr Venter himself. This research breakthrough marks a significant step towards the possibility of providing personalized medical care based on an individual's genome. Dr Venter found out that he carries genes linked to heart disease, longevity, Alzheimer's, macular degeneration and high cholesterol. This work also demonstrated that the number of variations in chromosomes base pairs are higher than originally thought, thus leading to a revision of current thinking about human variation.

Dr Venter has received numerous public honors and scientific awards, including the 2001 Paul Ehrlich and Ludwig Darmstaedter Prize, and the 2002 Gairdner Foundation International Award. He is a member of the National Academy of Sciences, the American Academy of Arts and Sciences, and the American Society for Microbiology.

Dr Venter has successfully challenged and expanded the frontiers of science like very few scientists of his or any other generation.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr J Craig Venter:*

*Antoni van Leeuwenhoek. Anatomia seu interiora Rerum, cum Animatarum tum Inanimatarum, Ope & beneficio exquisitissimorum, Microscopiorum. Detecta, variisque experimentis demonstrate, Una Cum discursu & ulteriore dilucidatione.... Lugduni Batavorum: Apud Cornelium Boutesteyn, 1687.*

*This rare publication was printed in Leiden during van Leeuwenhoek's lifetime (1632-1723). He is commonly known as the Father of Microbiology and considered to be the first microbiologist. He used microscopes of his own making to discover bacteria, protozoa, spermatozoa, Hydra and Volvox, and also parthenogenesis in aphids. This book is a Latin translation of the letters van Leeuwenhoek wrote over a number of years to the Royal Society in London wherein he transmitted his observations and drawings. It contains many woodcut illustrations and numerous foldout diagrams and is bound in the original publisher's binding with a paper spine label.*

# *Business & Faculté Saint-Jean*

TUESDAY, JUNE 10, 10:00 AM

## **Business**

The first business classes were taught at the University of Alberta in 1916 by professors at the School of Accountancy, and, in 1924, the first Bachelor of Commerce degrees were granted. In 1968, the Faculty of Business Administration and Commerce, as the School of Business was known then, became the first business school in Canada to be granted accreditation by the American Assembly of Collegiate Schools of Business. The School of Business has been awarded more 3M Teaching Fellowships than any other Canadian Business School (four in total). The Financial Times of London has ranked the School of Business 37th globally for excellence in published academic research, thus placing the School within the top 25 publicly-funded business schools in the world.

## **Faculté Saint-Jean**

*Established 1908*

The only French-language university degree program west of Manitoba, the Saint-Jean School was founded in 1908 by the Missionary Oblates of Mary Immaculate. The school was originally a juniorate, a place to instruct junior members preparing for life in the Oblate order, then became a classical college and eventually co-educational. Three years after its inception, the school moved to its current location overlooking the Mill Creek Ravine, just a few kilometres east of the U of A. It became part of the University of Alberta in 1970, and in 1976 the Oblate order sold the campus to the University. In 1977, it was given full Faculty status within the University and is now known as Campus Saint-Jean.

CONGRATULATIONS

## **Her Excellency The Right Honourable Michaëlle Jean, CC, CMM, COM, CD**

Her Excellency the Right Honourable Michaëlle Jean is the viceregal representative of the Crown in Canada. Michaëlle Jean was born in Port-au-Prince, Haiti, and immigrated to Canada in 1968.

After obtaining a Master of Arts at the University of Montreal, she taught with the Faculty of Italian Studies at the same university. She continued her studies at the University of Perouse, the University of Florence and the Catholic University of Milan.

An articulate advocate of social issues, Ms Jean has been involved with aid organizations for immigrant women and families, and actively contributed to the creation of a network of emergency shelters throughout Quebec—and elsewhere in Canada—for women and children in crisis. She later became a highly regarded journalist and anchor of information programs at Radio-Canada and CBC Newsworld.

“Breaking down solitudes” was the motto chosen by Ms Jean when she was installed as the Governor General of Canada on September 27, 2005. This motto is the image of the Canada she wants for generations to come. Since the beginning of her mandate, Her Excellency has focussed on a number of key themes, including the arts, social change and youth. She has launched several youth-oriented initiatives to ensure the voices of Canada’s young women and men are heard.

During her travels across Canada and abroad, Her Excellency often speaks on the need for more understanding and cooperation. She has led State and official visits to Algeria, Ghana, Mali, South Africa, Morocco, Brazil and France, and has visited Canadians from coast to coast to coast. As Commander-in-Chief of the Canadian Forces, the Governor General meets with Canadian troops and their families stationed across Canada and around the world.

Ms. Jean is fluent in five languages—Creole, English, French, Italian and Spanish. She is married to Jean-Daniel Lafond; the couple have a daughter, Marie-Éden.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Her Excellency The Right Honourable, Michaëlle Jean, CC, CMM, COM, CD:*

*René Depestre and Yves Picquet. Une Été Indien de la Parole. Editions Double Cloche: Plouédern, France, 2001. Number 22 of a limited edition of 40 copies. Signed by the poet and artist.*

*This livre d’artiste is the result of a collaboration between the renowned Haitian born poet René Depestre, recipient of many prestigious literary awards, and the noted French artist, Yves Picquet. In his preface to the work the poet claims to have kept his words in his memory with the hope of finally expressing them with grace and with strength and maturity of body and mind. He says he has dreamed of Indian Summer for thirty years and thus it becomes both a distillation and climax of his work. He rejoices in the artist’s work calling it a dream accompaniment to his poetic text. The unbound sheets of text and serigraphs are in a custom made cloth covered case.*

# Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

TUESDAY, JUNE 10, 3:00 PM

## Science

Established 1908 (Faculty of Arts and Science)

The Faculty of Arts and Science was the first Faculty named by the Senate at the University of Alberta in 1908. The Faculty of Science was officially created in 1963 when Humanities and Social Sciences moved to the Faculty of Arts. Today, the Faculty is home to 7,000 undergraduate and graduate students, over 1000 faculty and staff, and has seven departments: Biological Sciences, Chemistry, Computing Science, Earth and Atmospheric Sciences, Mathematical and Statistical Sciences, Physics, and Psychology.

## Agricultural, Life and Environmental Sciences

Established 1915 (Faculty of Agriculture)

The Faculty of Agriculture was established in 1915, reflecting Alberta's heritage of farming and ranching. Today the Faculty has numerous areas of study including the study of textiles, natural resource management, forestry, food safety and nutrition, human ecology, and of course, agriculture. In 2007 the name of the Faculty changed to reflect its' numerous course offerings and today is known as the Faculty of Agricultural, Life and Environmental Sciences.

## CONGRATULATIONS

### Elizabeth (Betty) Millard Jones

Focusing on improving the health of newborns, children and the less fortunate in many parts of the world, University of Alberta alumna Betty Jones has transformed the lives of countless families whose members all benefit when the health of one family member improves.

After graduating from the U of A, Dr Jones moved to the San Diego area. A Catholic sister approached her to volunteer at a tiny pediatric clinic in Tijuana. The sister was part of a group called Project Concern which needed a nutritionist to help educate doctors and patients.

Starting with a clinic to help newborns and children, Dr Jones then co-founded the Hospital Infantil de las Californias (HIC) in Tijuana, Mexico. HIC is a specialty hospital with two goals: to provide care for sick children and to teach children and their families how to stay healthy through good nutrition and appropriate lifestyle choices. For over 12 years HIC has provided essential health services to low-income and non-insured children, including day surgery, rehabilitation, ambulatory care, radiology, laboratory, ophthalmology and general health information. All medical care is provided regardless of ability to pay. In excess of 180,000 consultations have been given to children by more than 135 pediatric specialists who donate their time. Tens of thousands of children have benefited from Dr Jones' dream of healthy families.

She has also established supporting HIC Foundations in Canada, USA and Mexico; these Foundations work collaboratively to secure the money required to ensure that no child is denied medical care at HIC. Thanks to the Foundations' work, HIC is debt free.

Dr Jones was the first human nutrition educator with Wellstart International, which educates healthcare professionals and provides service to breastfeeding mothers. Wellstart provided several courses each year for multidisciplinary teams from over 48 countries. These professionals returned home and taught their colleagues. Programs like this are critical in helping prevent malnutrition in developing third-world nations.

In addition, Dr Jones introduced the Kangaroo Care program, which is a neonatal skin-to-skin program in which mothers or surrogates carry premature and newborn infants under their clothing. This program has produced very positive results in the physical and emotional development of babies. Kangaroo Care is especially important in countries where incubators are in short supply. When introduced in Bogota, Columbia, the infant mortality rate fell from 70 to 30 percent.

In addition to her duties at HIC, Dr Jones volunteers as a pediatric nutritionist, a guest lecturer and medical school professor. She has published several works, including *Good Nutrition for your Baby* in English and Spanish. Although Dr Jones has lived in the United States for much of her career, she remains a fiercely dedicated Albertan and Canadian.

Her legacy includes a major health centre for children, as well as an inspiring example of the difference that one person who cares can make in the world.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Elizabeth (Betty) Jones:*

*James Nelson. An Essay on the Government of Children, Under Three General Heads: Health, Manners and Education. London: Printed for R and J Dodsley in Pall-mall, and Sold by Mr Cooper in Pater-noster-row: 1753.*

*This is the first edition of the authoritative manual by the noted London apothecary James Nelson (1710-1794), who practised in London for half a century and whose book is still used as a valuable source for studying the relations of parents and children in 18th-century England. One of his rationally stated recommendations for fostering healthy children is to feed them regularly scheduled meals. This copy, in a contemporary full calf binding has end papers heavily annotated with an early owner's children's birth dates.*

# Congratulations Graduates

# *Education* (*Elementary*) & *Native Studies*

WEDNESDAY, JUNE 11, 10:00 AM

## Education

*Established 1942*

The Faculty of Education was founded in 1942 and was the first of its kind in Canada. At that time there was only one degree program, 12 courses and three full-time professors. Today, however, Education is one of the largest Faculties in Canada with nine undergraduate degree programs and a wide array of graduate degrees. With four teaching departments and one school, the Faculty employs over 125 full time professors, 64 support staff and 130 full and part-time sessional instructors and educates more than 3,400 undergraduate students and 800 graduate students. More than 60 percent of the elementary and secondary school teachers in Alberta are U of A graduates, 33 have become presidents of universities or colleges and over 25 percent of the current Deans of Education in Canada are alumni of this Faculty.

## Native Studies

*"Celebrating 20 years of excellence in Teaching and Research"*

The inspiration for the establishment of an academic unit devoted to Native Studies began with a meeting of representatives from the University of Alberta and members of the Indian Association of Alberta in 1972. The School of Native Studies was established in 1984, and in 1991 the first Bachelor of Arts in Native Studies was awarded. In 2008 the Faculty is proud to boast that more than 300 students have graduated from Native Studies. In June 2006, the School of Native Studies became a Faculty, to appropriately reflect the expanding teaching and research activities of its staff and students. Native Studies currently offers combined degrees with the Faculties of Agricultural, Life and Environmental Sciences; Education; and Physical Education and Recreation. Located in historic Pembina Hall, the Faculty of Native Studies provides a common ground for Native and non-Native students to learn, research, explore, and critically examine the historical and contemporary relations that concern Native peoples and communities.

## John B Zoe

Mr John B Zoe has long had a clear vision for the future of the Tlicho nation. He was the single most important catalyst in launching and resolving the Tlicho negotiations with the Canadian Federal Government. By incorporating the values and traditions of the Tlicho nation, he has worked to create a modern treaty that returns control of their traditional lands, gives them autonomy to govern themselves and allows them natural resources within their jurisdiction.

Without an academic education, John B, as he's known in the North, has become a learned man by listening to his elders, traveling the land, reflecting on the world around him, observing the relationship of his people with that world, and using his natural wisdom. He has lectured at universities in Canada and abroad on topics related to land and governance.

Mr Zoe is a thoughtful and compelling leader for his nation. He's a role model for Tlicho youth—elders respect him and chiefs seek his counsel.

As an historian, Mr Zoe is passionate about Tlicho culture and history, ensuring they form the foundation of modern Tlicho life. He has studied the Tlicho cosmology, a history of his people from their earliest stories of the beginning of time through to the modern context of their own government. Its underlying values have become the basis for governance in the Tlicho region today.

Funds generated from Impact and Benefits Agreements with three diamond mining companies support educational, spiritual and cultural ends, including support for more than 30 Tlicho students to pursue their post-secondary studies as well as annual canoe journeys for hundreds of Tlicho citizens to the Annual Assembly.

As an educator, John B has developed quiet wisdom through seeking Elder's advice and turning those teachings into concrete actions, initiating programs to build the modern day capacity of his people. He initiated a program called "Trails of our Ancestors" which allows youth under the guidance of the Elders and local educators to retrace the traditional birch bark canoe trails, visiting important sites along the way. The program is in its twelfth season, and Mr Zoe has not missed a trip.

A holder of traditional knowledge that very few elders can parallel, John B possesses an understanding of the balance between modern culture and traditional societies that very few academics can match. He has also helped his wife Bertha Rabesca Zoe attain her law degree at the University of Alberta. She is now the first Tlicho lawyer. Together, they are powerful role models in the North, showing youth what it is to "be strong like two people," as expressed by a Tlicho mantra.

Mr Zoe's ongoing commitment to his people has touched the lives of all Tlicho citizens as well as many other Canadians, and his legacy will endure for generations to come.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr John B Zoe:*

*Helge Ingstad. The Land of Feast and Famine. Translated from the Norwegian. New York: Knopf, 1933.*

*The Norwegian explorer Helge Marcus Ingstad (1899-2001) is most famous for discovering the ruins of L'anse aux Meadows on the north coast of Newfoundland in 1960 proving Vikings reached North America 500 years before Columbus or Cabot. In the 1920s Ingstad sold his law practice and travelled to the Northwest Territories where he lived as a trapper in the company of Aboriginal and white trappers and hunters. This book describes his numerous adventures and also provides a remarkable body of knowledge about native medicine. This first English edition is in the original publisher's yellow cloth binding with dust jacket.*

# Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

# *Education (Secondary, Adult, Diplomas) & Physical Education and Recreation*

WEDNESDAY, JUNE 11, 3:00 PM

## **Education**

*Established 1942*

The Faculty of Education was founded in 1942 and was the first of its kind in Canada. At that time there was only one degree program, 12 courses and three full-time professors. Today, however, Education is one of the largest Faculties in Canada with nine undergraduate degree programs and a wide array of graduate degrees. With four teaching departments and one school, the Faculty employs over 125 full time professors, 64 support staff and 130 full and part-time sessional instructors and educates more than 3,400 undergraduate students and 800 graduate students. More than 60 percent of the elementary and secondary school teachers in Alberta are U of A graduates, 33 have become presidents of universities or colleges and over 25 percent of the current Deans of Education in Canada are alumni of this Faculty.

## **Physical Education and Recreation**

*Established 1964*

The Faculty of Physical Education and Recreation was the premiere Faculty of its kind to be established in the Commonwealth in 1964. Established first as a Department of Physical Education, and later Recreation, in 1945, the Faculty granted its first undergraduate degree in 1953 and its first doctoral degree in 1964. Researchers make a significant contribution to the study of sport science, physical education, recreation and leisure, and physical activity and health. Since the inception of the Golden Bears hockey program in 1908, the Faculty's athletics and Campus Recreation programs have grown in strength to rank among Canada's finest.

## CONGRATULATIONS

### k. d. lang

k. d. lang received her first Juno Award in 1985 as the Most Promising Female Vocalist. She has since won eight Juno Awards and four Grammy Awards, and in 1990, she was voted Artist of the Decade by the Canadian music industry.

When Ms lang received her Artist of the Decade Award from the Canadian music industry, Canadian novelist Margaret Atwood said, "Every once in a while, someone comes along who refuses to be stuffed into the accepted pigeonhole, who defies the limits of category, and who takes a popular form and stretches it beyond what was thought possible, making it bigger in the process. Usually you can't get away with this unless you are very, very good. k. d. lang is very, very good."

Ms lang was born in Edmonton and raised in the small farming and ranching town of Consort, Alberta. In 2004, when she released her album *Hymns of the 49th Parallel*, a showcase for Canadian song writers, she said, "These songs are part of my cultural fabric, my Canadian soundtrack. They have nurtured my musical DNA."

k. d. lang made her American television debut in 1986 on Late Night with David Letterman, which was an important opportunity in establishing her reputation in the United States. She won mainstream success in 1988 for the duet "Crying" with Roy Orbison, which earned them the Grammy Award for Best Country Collaboration with Vocals in 1989. That year, she also won the Grammy Award for Best Female Country Vocal Performance for her album *Absolute Torch and Twang*. In 2002, she launched a successful tour with singer Tony Bennett, and in 2003 won the Grammy Award for Best Traditional Pop Vocal Album for her collaboration with Mr Bennett on *A Wonderful World*.

Ms lang has been a strong and committed advocate for sexual minority rights, and she is equally committed to the celebration of diversity across all areas of human difference. She actively promotes and supports programs for young people to help them appreciate the richness that such diversity offers.

Her advocacy for human rights and the value of diversity, her mentorship of youth in understanding and embracing the full range of human experience, and her personal resilience and passionate pursuit of an international career as a performing artist will all leave an enduring social and cultural legacy.

k. d. lang's voice inspires and uplifts the human spirit.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Ms k. d. lang:*

*Beube, Douglas. **The Many Lives of Miss Chatelaine.** Unique artist's book. Brooklyn, NY. 2008.*

*In his artist statement Beube refers to **The Many Lives...** as a "metaphor and tribute to kd lang who has gone through numerous musical and personal changes throughout her career and my artwork is an impression or sketch rather than an exact rendering of her life." To accomplish this complex portrait, Beube has gathered numerous books that have either directly or tangentially affected the singer. He feels that some of her musical influences and collaborations with Roy Orbison and Patsy Cline were monumental and her affinity with animals, nature and the earth are essential elements in her life as is her belief in the freedom of individuals to be in love relationships that are true to their soul whether they are gay, lesbian or straight. Through collage, sculpture, written text—using lists of birds and flowers from Alberta for example, lyrics from her songs, cut paper, stitching zippers and pages—the composite portrait both figuratively and literally unfolds.*

# Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

### Arts

*Established 1908 (Faculty of Arts and Science)*

In 1908 the Faculty of Arts and Science was the first Faculty established at the newly formed U of A, with 45 students enrolled that first year. The Faculty also included a Department of Engineering. Today the Faculty has 14 departments and six interdisciplinary programs devoted to the social sciences, humanities and fine arts with more than 6,800 enrolled.

### Law

*Established 1912*

The Faculty of Law is the oldest law school in Western Canada and one of the oldest in the country. When it was founded in 1912, a graduate with a degree in Arts, Law, Medicine, or Science could become a student-at-law by articling in a law firm for three consecutive years. In 1913 the Law Society of Alberta turned responsibility for setting exams for students involved in legal education in Alberta over to the University. Morning lectures were delivered at the courthouse in time for the students to make their way to their respective law firms for articling and afternoon lectures started at the end of office hours. By 1921, new legislation resulted in students being required to study full-time at the University for three years to obtain a Bachelor of Laws degree.

CONGRATULATIONS

## Alexan Simeon Janvier

Mr Alexan Simeon Janvier is one of the most important living Canadian Aboriginal contemporary artists. As a member of the commonly referred to "Indian Group of Seven," his pioneering work has also inspired many younger generations of artists.

Born at the LeGoff Reserve near Cold Lake, Alberta, he is a member of the Cold Lake First Nation and is of Dene Suline and Saulteaux descent. He attended the Blue Quills Indian Residential School and it was there that he was given the tools to create his first paintings.

After high school he attended the Southern Alberta Institute of Technology and Art, now the Alberta College of Art and Design, and graduated with honours. He was one of the first Aboriginal artists to be trained in a professional art school. Immediately after graduation he took up an opportunity to teach art at the University of Alberta.

Mr Janvier has developed an art style which fuses First Nation traditions with modernist abstraction. He proudly credits the beadwork and birch bark basketry of his mother and other relatives as influencing his art. His innovative, abstract style of painting has become legendary in the Canadian art scene. In each decade of his career, his paintings have been featured in a world-class exhibition.

Alexan Simeon Janvier first came to the public's attention for painting a mural for the Indians of Canada Pavilion at Expo '67 in Montreal. His largest commissioned work is the masterpiece *Morning Star* on the ceiling in the Great Hall of the Canadian Museum of Civilization in Hull, Quebec.

Based on the important work produced in the early years of his career, Mr Janvier was the only artist selected to represent Canada in a Canadian/Chinese Cultural Exchange in 1985. His life-long commitment to the arts has been honored by three prestigious Lifetime Achievement Awards from the National Aboriginal Achievement Foundation, the Tribal Chiefs Institute and the Cold Lake First Nations. In 2007, Mr Janvier received an Order of Canada and this March he received the Governor General's Award in Visual and Media Arts.

Alexan Janvier has seamlessly integrated his art with his life. Through his art he paints what he has lived. He tells stories about his land and his people. He bears witness to loss and hope. However, in his unique vision is a connection to the universal. His work as both an artist and a political activist addresses head-on some of the most pressing societal and environmental concerns facing Canadians today: Aboriginal land claims resolution, residential school compensation, language loss, neglect of traditional culture, spiritual alienation, and ecological devastation due to resource exploration and extraction.

Mr Janvier is a role model for artists of all cultural backgrounds and generations. He has brought international recognition to the province of Alberta and continues to make outstanding contributions to our artistic heritage through his work and his enduring commitment to our local and national arts institutions.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Alexan Simeon Janvier:*

*Tanya Schmoller. To Brighten Things Up: The Schmoller Collection of Decorated Papers. With a Forward by Mirjam Foot. Manchester: Manchester Metropolitan University, 2008.*

*Decorated papers have been used for centuries as endpapers or wrappers for books or pamphlets. The types of decoration described and illustrated in this book are gold embossed, marbled, block printed, paste, machine printed, and other techniques mainly from Japan and China. The collection was painstakingly gathered by the late Hans Schmoller who was a book designer and typographer and later Director of Penguin Books. Such collections are invaluable sources of inspiration for artists, students and researchers of all kinds with interests in design, surface pattern, book history and much more. The cover is bound in marbled paper designed by Tirzah Ravilious and the end papers are examples of late 20th-century marbling by Karli Frigge.*

# Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

### Felix (Fil) Fraser

Mr Fil Fraser is a widely respected cultural leader, catalyst and creative voice within and beyond Alberta's borders. He has set a standard of excellence in pioneering the development of a film industry in Alberta as a writer, director and producer of major films. A member of the board of the Lieutenant Governor of Alberta Arts Awards Foundation, his innovative achievements in radio, television and culture have secured him a prominent role as a relevant and contemporary commentator on the arts scene in our community.

Mr Fraser has made life-long contributions as a broadcaster, journalist, television program director and television and film producer. He is the founder of the prestigious Banff International Television Festival which has helped to position Alberta on the world map. His views and opinions have shaped the social and cultural fabric of Edmonton and Alberta for over a generation. He is passionate about helping young people who are attracted to the communications and broadcasting fields to achieve their goals and excel at what they do. In his life and in his work, Mr Fraser possesses the unique ability to develop an easy rapport with anyone, from any walk of life.

As well as working in the film and television industries, Fraser is the author of two books: *Alberta's Camelot: Culture and the Arts in the Lougheed Years* and *Black Like Me*. He continues to be a prolific writer on contemporary subjects, and has had articles published in most Canadian major daily newspapers. He contributes to the transmission of knowledge as both a teacher and lecturer, and has taught at Athabasca University and in the University of Alberta's Faculties of Law and Extension.

A respected member of the black community in Alberta and Canada, he believes that through the celebration of the achievements of minority groups it will be possible to create a culture of mutual respect and understanding within our society. Mr Fraser is also an influential role model for minority youth who sometimes experience challenges within Canadian society.

Mr Fraser has assisted 17 different cultural, arts and social organizations over his lifetime, contributing sound judgement, common sense, and a broad knowledge of the local community. He also served as the Chief Commissioner of the Alberta Human Rights Commission from 1989 to 1992.

In addition, Fil Fraser has played a leading role in public policy development—as a member of the Spicer Commission, the Federal Task Force on Broadcasting Policy, the Canadian Multiculturalism Council and the Alberta Task Force on Film.

Fil Fraser is a member of the Order of Canada and was inducted into the City of Edmonton's Cultural Hall of Fame. He personifies the powerful impact of one uniquely creative and committed individual on the life of our city and the future of our province.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Felix (Fil) Fraser:*

**Leonard Seastone. Good Movies: A Film Noir in Book Form.** New York: The Center for Editions, Division of Visual Arts, State University of New York at Purchase, 1988. Number 9 of a limited edition of 30 copies. Signed by the artist.

*During the mid 20th-century the Eastman Kodak Company published dozens of editions of handbooks "for the amateur movie maker." This work is a blown up montage, a visual rewriting of the manual. In the artist's statement he suggests that his key was the "Kod" (pronounced code) in Kodak and that if a book is not just something to contain predetermined information then Good Movies surely is, in essence, investigative. He cautions, "the facts have been changed to forewarn the innocent" and sees "an alignment of the co-development, in the 1840s, of the camera and the mystery novel with language that overlaps in its parlance of violence and predictive hints" of future dire events. The book is bound in quarter leather, stamped title in printed paper boards.*

# Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

SUNDAY, MAY 25, 2:30 PM

*Established 1910*

Located in the small city of Camrose, Alberta, Augustana Campus was founded in 1910 by Norwegian settlers. Originally named Camrose Lutheran College, the campus became part of the University of Alberta in 2004. It offers baccalaureate degrees in Arts, Fine Arts, Humanities, Physical Education, Social Sciences, Science, Music and Management. As of 2007, more than one thousand students were registered in the liberal arts-focused undergraduate programs offered by Augustana Faculty.

## CONGRATULATIONS

### Bertha (Berdie) Helen Fowler

Bertha (Berdie) Helen Fowler is a dedicated Alberta community leader and volunteer who has helped to forge new territory for Alberta businesswomen and spurred the development of many programs and services in her home of Camrose. She is a woman distinguished both by great accomplishments and by an exemplary life lived with dignity and artfulness in service of her community.

Mrs Fowler was born in Bittern Lake, Alberta and grew up as one of three girls on the family farm. She received a Commercial Course Diploma from Camrose Lutheran College (now the Augustana Campus of the University of Alberta) in 1939. Many people know Mrs Fowler best as the editor of *The Camrose Booster*, the local newspaper she co-founded with her husband in 1952. At age 87 she continues to write a weekly column that is remarkable for its reasoned clarity, its thoughtfulness and sometimes its boldness in addressing issues of the day. Under her leadership *The Camrose Booster* has received many awards for editorial and advertising achievement, and it has been named the best publication in North America in its class for 10 out of the past 14 years.

A remarkable woman, Berdie Fowler has experienced many “firsts” including being the first woman in Alberta appointed to the Board of the Alberta Opportunity Company and the Alberta Apprenticeship and Trade Certification Board; she was also the first woman in Alberta to be elected as President of a Chamber of Commerce. She has inspired many women across Alberta with her leadership and service.

Though successful in business, she understands the plight of the poor. Recipient of the 2007 Literacy Award from the Camrose Adult Learning Council, she is well read and an excellent writer who promotes programs to advance literacy for those whose skills are marginal. She doesn’t advocate gender equality, she assumes it. She doesn’t preach business ethics, but she demonstrates them. Berdie Fowler believes in hard work and reaping its benefit, but she always advocates ways for the community to reach out to the less advantaged. Her personal motto seems to be “if one person remains unfulfilled, we are all diminished.”

Mrs Fowler’s community involvement includes being a founding member of the Camrose Children’s Day Care Centre, Crime Stoppers, and the High School Work Experience Program, President of the Business and Professional Women’s Club and Co-Chair of the Augustana Library Campaign. She brings forward the best that each person has to offer and this results in decisions and actions that are helpful and supportive to all.

Through her tireless work, Berdie Fowler has become a pioneer for Alberta women and the gold standard in Camrose and East-Central Alberta in defining and promoting community excellence.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mrs Bertha (Berdie) Helen Fowler:*

*Mrs (Hester) Chapone. Letters on the Improvement of the Mind, addressed to a Young Lady. 4th edition. London: Printed by H Hughes for J Walters, at Homer's Head, Charing Cross. 1774. 2 vols.*

*Mrs Chapone, a central figure in the Bluestocking circle of the 18th-century, was a protégé of Dr Johnson and Samuel Richardson. This work stresses the importance of education for young women. Her themes range from religion to economy, geography, history, politeness, accomplishment, government of the temper and the regulation of the heart and affection. Her works were highly regarded and went into many editions. This set is bound in contemporary full mottled calf with gilt decorated spines and ribbon bookmarks bound in.*

# Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Lawrence Twigge of the Department of Extension and the Visual Instruction Division, 1945.

Enterprise Square, the home of the Department of Extension, officially opened on January 15, 2008.

Extension's CKUA went on the air in 1927 as the first educational radio station in Canada.

# Extension

## *Established 1912*

The Faculty of Extension's first home was in the basement of Assiniboia Hall. Today its classrooms, laboratories, art gallery, student services and offices are found in Enterprise Square, the University's exciting new campus in downtown Edmonton. From responding to Henry Marshall Tory's challenge in 1912 to "find out what the university could do for the people beyond the classroom and the laboratory" to carrying out today's mandate to share the University's knowledge and expertise beyond the campus by engaging with citizens and communities to meet practical needs and address real-world issues, Extension

continues to be a key interface for Albertans and their provincial university. Milestones along the journey, well known to many Albertans, nationally and internationally, include agricultural extension, traveling libraries, the establishment of CKUA Radio, the Banff Centre for Continuing Education, a campus in Calgary which eventually became the University of Calgary, the Petroleum Industry Training Service, and, most recently, a graduate degree program in Communications and Technology, the City-Region Studies Centre and a partnership with the Edmonton Lifelong Learners Association to provide a broad range of university courses for older adults.

## *Congratulations from the Faculty of Extension Graduates!*

The Faculty of Extension is delighted to congratulate all University of Alberta Centenary graduates, Honorary Doctorate recipients and award winners. May your accomplishments be recognized throughout our second century and beyond.

We encourage you to keep learning throughout your lives, whether formally in structured activities, or informally through adventure, play, community engagement, professional

development, personal enrichment, unexpected opportunities, or sheer serendipity! Learning will keep your brain in shape. And, please remember, that the Faculty of Extension is here and committed to supporting your continued growth through a wide and always evolving range of learning experiences.

Again, I congratulate you on your impressive accomplishments, and wish you a bright future.

Dr Katy Campbell  
Interim Dean

# Poetry Contest

In honor of the University of Alberta's centenary in 2008, The U of A Alumni Association sponsored a poetry contest for students in their graduating year. The theme of the contest, and the centenary, was *quaecumque vera*—*whatever things are true*. The following is the winning entry, submitted by Alicia C Donaldson who graduates this year with a Bachelor of Arts in English.

YOU may have first brushed me by  
Under the sundial  
In early April  
Your presence somewhere between  
Heart and head  
PQ to PR on the 5th floor  
Always this gentle urgency guided our  
Love affair  
We were loud and boasting those nights  
In Dewey's under red glow and wine  
Chests swelling souls reaching for  
Anywhere beyond awkward grasping  
You waited.  
I walked thru snow and  
Orange lamplight falling upon  
Carved acorns and Angels hidden  
Alcoves of wood and red brick  
Your monuments  
I passed, in the early years, unaware.  
November and March were the hardest times  
Stifled by incessant words  
Conflicting worlds  
No peace for pause of thought  
In that mess of literature and argument  
I was blinded by method  
Made bitter by why  
I lost you and did not care  
April came once again  
The snow into sparkling streams and puddles reflecting Elms  
Older I stepped from classroom into daylight  
Students, seekers we pushed on  
No longer weary  
No longer certain faces  
Uplifted towards the sun  
With a warm touch you unforrowed my brow  
Pulled me in close  
Whispered  
Quaecumque vera Whatever things are true  
Will be found here in the midst of these  
My sacred spaces.

# Welcome to the Alumni Association

---

## Because your degree is only the beginning...

As a graduate of the University of Alberta, you are part of the University's worldwide alumni family, now more than 200,000 members strong, playing leading roles in their communities and in the world. Internationally known U of A alumni include former Canadian Prime Minister Joe Clark; former World Conservation Union President Jay Hair; Nagoya University founder, the late Yuichi Kurimoto; former Alberta Premier Peter Lougheed; and Nobel Prize winning physicist Richard Taylor; All around the world, your Alumni Association can help you with services, contacts, and news from your alma mater, so stay in touch!

## Exclusive Benefits and Services

As a new alumnus you're probably wondering what the Alumni Association can do for you. In short, we're here to help. We want to help you save money, keep in touch, see the world, and get all the recognition you deserve.

### Save money

Go to Vegas, get your nails done, sponsor a foster child, tip your waitress, but don't overspend on insurance. As a U of A alumnus, you can get great home, auto, health, life, and dental insurance rates, so you can spend the rest of your money the way you want to.

### Keep in touch

Your U of A e-mail address expires three months after graduating, so make sure you sign up for free e-mail forwarding or join the Online Community and let your former classmates know where you are and what you're doing with your degree. Visit [www.ualberta.ca/alumni](http://www.ualberta.ca/alumni) for more details.

### Mad props!

Each year the Alumni Association recognizes some of our outstanding alumni with awards. Narrowing the field is a tough job given the caliber of all of our grads, so help us out by nominating an exceptional alumnus—like you!

### Move, shake

Rub elbows with fellow U of A grads at parties, receptions and special events—it's a great way to network, keep in touch with old friends, and make new ones. The Alumni Association works with your classmates to arrange a reunion every five years, but you don't have to wait that long to reconnect—come to a happy hour "shindig," bring a date to an alumni theatre event, or join us for coffee at an afternoon reception.

## Life 101

We know the learning curve doesn't level out after graduation, which is why we offer seminars and workshops to address some of the issues that don't get covered in school.

They include:

- Debt-Management Seminars
- Income Tax Workshops
- Home-Buying Seminars
- Investment Seminars

## Get out of town

The Alumni Association offers a number of travel opportunities for grads, from outdoor adventure trips in British Columbia, to luxury cruises on the Panama Canal. For the independent traveler, the Online Community includes travel advice from alumni living abroad—get in touch and get travel tips from someone who's been there!

## Chapters of the Alumni Association

Chapters exist to maintain connections between alumni from specific faculties or clubs on the University campus. Volunteer opportunities exist for alumni interested in maintaining and building upon valuable university contacts through these Chapter activities. Contact can be made through the Office of Alumni Affairs.

## Branches of the Alumni Association

While approximately forty percent of our graduates live in Edmonton and nearby communities, alumni live, work, and make their impact felt in countries in all corners of the globe. There are alumni volunteers in more than forty communities around the world, providing social and career contacts to graduates moving to a new area. Chances are, wherever you end up after graduation, there's a branch of the Alumni Association there. If not, maybe you should start one—ask us how!

## U of A Grads (re)Unite!

The Alumni Association invites you back to a Reunion every five years, but you don't have to wait until then to celebrate. Two thousand and eight marks the 100th anniversary of the U of A, and we're throwing the party of the century! Come back to campus September 18 – 21 for a Homecoming party you'll never forget, including concerts, sporting events, lectures, a gala dinner, a dance, and, of course, fireworks!

If you can, please share this program with a companion.  
Then, if you do not take it home, please leave it (in good  
repair) on the table by the doors as you exit. This will help  
us ensure that someone else can use it on another day of  
Convocation, and subsequently conserve paper.  
Thank you for your assistance.
